

Inclusive Gender+ Equality Policy and Practice in Sports Higher Education Institutions

SUPPORTER is an EU-funded project aiming to support eight sports higher education institutions from Central and Eastern Europe in developing their own intersectional, innovative, inclusive and impactful Gender Equality Plans which explicitly address gender-based violence and sexual harassment.

Our game plan

Through the development of these inclusive gender equality plans, SUPPORTER strives to reach the wider sports ecosystem in the CEE region and in the long run contribute to wide societal changes when it comes to Gender Equality.

8 Gender Equality Plans for Sports Education Institutions that also address gender based-violence

Gender+ equality and gender based-violence policies and practices in the field of sport education

Mutual learning: development of a training and mentoring-monitoring scheme

On the ground SUPPORTER will:

- Engage in mutual learning to foster an inclusive institutional culture
- Document systemic challenges faced by sports higher education institutions in Central Eastern Europe in advancing gender equality through institutional change
- Develop activities adapted to the Central and Eastern European context and tailored to each partner institution
- Use the intersectional approach to strengthen the sports institutions' organisational capacity to address gender equality
- Foster gender-related institutional, sustainable, transformative changes in the sports institutions with specific attention on the challenge of gender-based violence
- Engage in relevant Communities of Practice to strengthen the sports institutions' relevant networking and ties with their consequent outreach
